

## Plant Manager's Meeting Minutes

February 23,2007

Location: William B. Roberts 4-8 School  
2100 Akron Way  
Denver, Co 80238

Attendees: 42

Introductions: Andy Raicevich  
720-4234152

Update on Dept. of Oil and Safety Task Force by Wayne Blazek.  
Nothing has significantly changed from our last meeting.

It was brought to the table that we should establish a committee to propose guidelines (checklist) to present to the state. This would allow districts to comply with the codes and not circumvent the process. This would help streamline the requirements.

The sub committee is to meet on March 5, 2007 at Jefferson Co. Bob Smith volunteered to host the sub committee.

The C.A.S.B.O. meeting is currently slated to have an update on the Dept of Oil and Safety task force. Second on the agenda will be a presentation by Donnell- Kay Foundation by Nina Lopez. Presentation will be on the crumbling classrooms project. Presentation to be followed by round table discussion.

The next scheduled Task Force meeting is scheduled for March 14,2007.

Trena Deane presented on Custodial Core Task for Denver Public schools.

Denver public schools also presented Automated Logic Web control and Energy savings and how that was being utilized within DPS.

Architect and Construction Services Dept for DPS presented information on the William B Roberts 4-8 School, including geothermal systems and a tour of the facility.

Round Table discussion consisted of Confined Space Assessments to include crawl spaces, entrapment, boiler room access and meter pits. In addition custodial recruitment and performance evaluations were discussed.
